

DSP112

Wall Mount Speaker

Description

This product is a wall-mounted speaker. With several terminals, it can be widely used in hotels, commercial buildings, shopping malls, schools, and entertainment places. The speaker is made of high quality engineering plastics, which can be mounted horizontally or vertically.

Features

- With several terminals, suitable for different fields.
- With hanging holes on the machine, support horizontal and vertical installation.
- Made of high quality engineering plastics, with long-term durability, no deformation, no fading.
- Excellent damping for driver surround, with long service life, high sensitivity, and clear and bright sound.

Specifications

Model		DSP112
Speaker Unit		4.5"×1
Rated Power		6W
Voltage Input	70V	1.5W-3W-5W
	100V	3W-6W
Sensitivity (1m, 1W)		91±2dB
MAX. SPL. (1m)		98±2dB
Effective Frequency Range		180Hz-18kHz

Size (H×W×D)

277×180×80mm

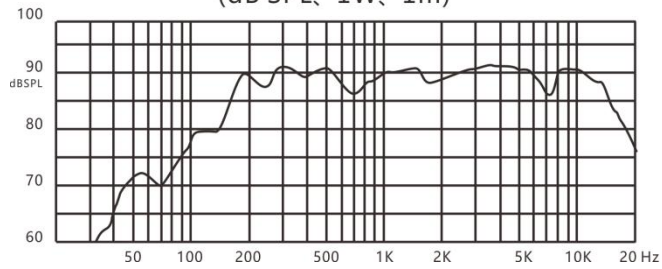

Weight

0.95kg

Product Information

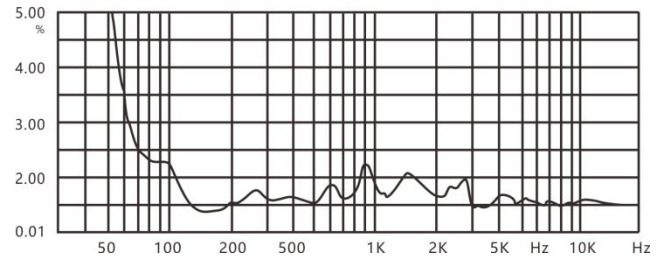

FREQ. RESPONSE

(dB SPL, 1W, 1m)

DISTORTION

(THD < 5% 1W, 1m, 100Hz-10kHz)

Installation
